WORLD'S BIGGEST OPTIONS MARKET SET TO GROW TENFOLD

Options trading in India has the potential to grow tenfold over the next five years as bourses add companies to segment and introduce long-dated options on indexes, say brokers

657 million index options contracts traded at NSE this year through August, highest in the world

286 million contracts traded on CBOE Holdings during the period

264 million contracts at Deutsche Boerse

99.6% share of NSE in trading in derivatives

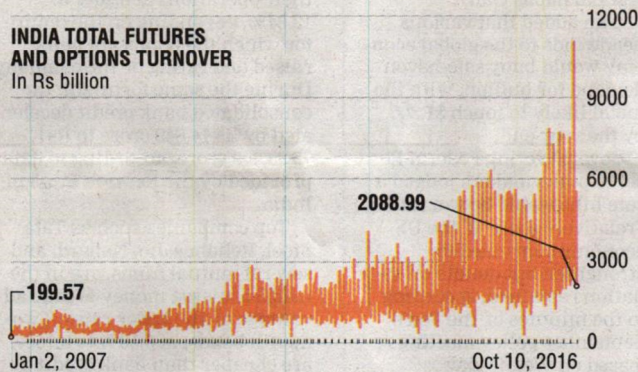

86% of options turnover in India is accounted by NSE

Rs 21,900 crore
— Combined value of trades in this segment till October 10

Rs 20,700 crore
— the figure in the same period last year

INDIA TOTAL FUTURES AND OPTIONS TURNOVER
In Rs billion

People still use options as an investment tool and not primarily to hedge portfolios. The market is at a very nascent stage. It is nothing compared to what you are going to see in future.
