NSE Academy takes off with a global programme

OUR BUREAU

New Delhi, May 25

NSE, the country's largest bourse by profits, will now offer all its educational and training programmes under a newly set up entity – NSE Academy.

The newly-formed academy

– a subsidiary of NSE Strategic Investment Corporation – will begin its journey with NSE's redesigned flagship programme – Post Graduate Certificate Programme in Global Financial Markets (PGCP-GFM).

"With India being in the list

of top 10 countries in terms of market capitalisation of around \$1.66 trillion (₹166 lakh crore) and its market capitalisation-to-GDP ratio being as high as about 75 per cent, NSE's efforts can actually make our students stand out as professionals in the global

capital markets. Significantly, they can also play a pivotal role in improving the financial well-being of people," Chitra Ramkrishna, MD & CEO, NSE, said in a statement.

Apart from meeting demands from large corporates, PGCP-CFM is expected to play

a critical role in providing trained manpower for the International Financial Centre (IFC).

An IFC is coming up in the GIFT city, Gujarat, where NSE is in the process of setting up an international exchange.
